

Apisfero News n. 16 – October 2021

APIMELL 2021

We will be present at APIMELL at **stand 44 corridor E**. You will be able to see the Varroe Counter in operation and the prototype of the next BeeVS, you will be able to discover the new counting service on demand.

We deliver the sticky sheets and Apisfero takes care of the Varroa counting. A few simple steps for a complete Varroa monitoring in all your apiaries.

We have a **limited number of gift tickets available**. If you are interested, being in electronic format, please let us know your name, surname, valid e-mail address by writing to info@apisfero.org. We will be happy to send you a free gift ticket.

Over 3 milion

During the month of October, the **3,000,000 Varroe counted by the Bee Varroe Counter of Apisfero** spread throughout Europe.

It is an important result but the greatest satisfaction is that of having **saved 298 days of tiring counting work for the beekeepers** who now have an extra tool to combat Varroa.

Sabato 30 ottobre 2021

Ore 14:30 sala C

Titolo dell'incontro:

Metodologia per il contenimento della Varroa d. tramite conteggio automatico

Tecnologie innovative che abilitano nuove pratiche apistiche.

Intervengono:

M. Rubinigg

(direttore del centro di formazione per l'apicoltura di Graz Austria)

P.P. Danieli

(DAFNE - UniTus)

M. Ortolani

(allevatore api regine AIAAR)

Dal superorganismo alveare al iperorganismo apiario

Introduzione al metodo

Domande e Risposte

Adesione di apicoltori volontari

Ingresso libero
